**INFINITY Q DIVERSIFIED ALPHA FUND  
FORM 8937**

**PART II, LINES 15, 16, AND 18**

---

In general, the liquidating distribution will be treated for U.S. federal income tax purposes as part of a series of distributions in complete liquidation of Infinity Q Diversified Alpha Fund ("Infinity Q") in which amounts received by stockholders are treated as full payment in exchange for their shares of Infinity Q common stock. The liquidating distribution will first be applied against and reduce a stockholder's adjusted tax basis in its Infinity Q common stock. A stockholder will recognize gain as a result of the liquidating distribution to the extent that the value of the liquidating distribution (\$1.2647 for institutional shares and \$1.2475 for investor shares) received by the stockholder with respect to a share exceeds the stockholder's adjusted tax basis in the share. A stockholder generally cannot recognize a loss on a liquidating distribution until the final liquidating distribution is made. If a stockholder holds different blocks of Infinity Q common stock (generally as a result of having acquired shares at different times or at different prices), gain or loss is calculated separately with respect to each such block.
